Dust treatment wall mod.

DRY

Dal Prete

FRIENDLY TECHNOLOGY FOR STONE AND WATER

The dust treatment walls mod. Dry is manufactured in hot galvanized material as it is not using water to clean the air.

The dust is collected externally of some filters and then removed periodically by an air pulse. The dust falls down and is collected in some drawers easy to remove.

Model	Dimensions	Weight Kg	Fan N°	HP	M ³ /hour	Efficiency %	Noise
Dry 4 mt	4000x1000xh2350	415	2	6	22.000	99,3%	69dB
Dry 3 mt	3000x1000x2350	320	1	3	11.000	99,3%	69dB
